

Better Aeration  
Healthy Aqua Life

AirOxi<sup>TM</sup>  
TUBE

## Dissolved Oxygen (DO) Meter

- ✓ This hand held / portable Dissolved Oxygen testing meter is a very useful tool and will instantly display the **Dissolved Oxygen** Levels in water.
- ✓ Probe length is 5 mtrs.

## Water Testing Kit for Aquaculture

- ✓ Compact, user friendly, accurate.
- ✓ Instant results.
- ✓ 100 tests x 9 parameters.
- ✓ You can test pH, Hardness, Alkalinity, free Carbon Dioxide, Nitrates, Dissolved Oxygen, Hydrogen Sulphide, Ammonia, Phosphate.
- ✓ Mini Kit Option -5 Parameters (DO, Ammonia, pH, Hardness, Alkalinity)
- ✓ Cost is less then Rs.10/- per test

# AirOxi™ Introduces a comprehensive Water Testing Kit for aquaculture.

**Accredited by the**  
**UNESCO Microbial Resource Center For Marine Biotechnology**  
Dept. of Fisheries Microbiology, College of Fisheries, Mangalore.

Measure 9 key parameters important to fish farming

- ✓ Compact, portable, user friendly, accurate and instant results.
- ✓ Chemicals supplied with the kit can analyse 100 samples of each parameter
- ✓ The Kit consists of all the chemical reagents, glasswares and other accessories required for the water testing.
- ✓ The Kit is provided with convenient operating manual to guide the users through the test protocol with color chart to compare and arrive at results.

## Mini Kit Option - 5 Parameters (DO, Ammonia, pH, Hardness, Alkalinity)

(User Manual available in English, Telugu, Tamil, Hindi, Oriya, Bengali, Kannada and Gujarati)

1	pH	Universal indicator / colour comparison	6.0 – 10.0
2	Hardness (As Calcium carbonate)	Drop Titrimetric	0.0 to 150 ppm (Extended range with dilution)
3	Alkalinity (As Calcium carbonate)	Drop Titrimetric	0.0 to 250 ppm (Extended range with dilution)
4	Free Carbon Dioxide	Drop Titrimetric	0.0 to 40.0 ppm (Extended range with dilution)
5	Nitrates	Colour comparison	Up to 1.00 ppm
6	Dissolved Oxygen	Drop Titrimetric	0.0 to 10.0 ppm
7	Hydrogen Sulphide	Colour comparison	0.0 to 5.0 ppm
8	Ammonia	Colour comparison	0.0 to 1.00 ppm
9	Phosphate	Colour comparison	0.0 to 0.5 ppm
